

Privacy Policy

Last updated: 2 October 2026

Demo document. Template for a portfolio project, not legal advice.

1. What we collect

Your Minecraft nickname and email address (entered at checkout), the contents and status of your orders, and technical data needed to run the site such as IP address in server logs.

2. Why we collect it

To deliver your items to the right nickname, to send your order confirmation and case links, to prevent abuse and to help you if something goes wrong.

3. Who receives it

Stripe processes payments. Cloudflare Turnstile checks that a visitor is not a bot. Our hosting provider stores the data. Game servers receive only your nickname and the delivered items. We do not sell personal data.

4. Analytics

Google Analytics 4 is loaded only if you accept analytics cookies. If you decline, no analytics data is sent.

5. Retention

Order records are kept as long as needed for support, accounting and dispute handling. Logs are kept for a limited period.

6. Your rights

You may ask for access to, correction of or deletion of your data, and object to processing, subject to the law. Contact us through the Contact page. You may also complain to your data protection authority.

7. Demo notice

This is a demo project. Use test card data only and do not enter personal data you would not want to share.
