## 1. Immediate delivery

Items are digital and delivered immediately after payment. At checkout you consent to immediate delivery and acknowledge that this affects withdrawal rights for digital content.

## 2. When we refund

A refund is issued when delivery of an order has failed and could not be completed after retries, or when an administrator decides to refund the order.

## 3. Whole orders only

Refunds apply to a whole order. Partial refunds of single items are not available.

## 4. Opened cases

Orders with at least one opened case key are not refundable. Unopened case keys of a refunded order are voided.

## 5. What happens on refund

The payment is returned to the original payment method through Stripe. Delivered items and active grants from the order are revoked in the game.

## 6. Timed items

Duration of timed items is calculated to the hour from delivery and ends automatically; expired items are not refunded.

## 7. Chargebacks

If a payment is disputed with your bank, the related items are revoked while the dispute is open.

## 8. How to ask

Write to us through the Contact page with your order number.
